

FUNDRRAISER

Paul Fisher Park needs a playground update. For safety, in 2022, the swing set for the older kids had to be removed. Funds that were going to be used for new equipment were instead needed to repair the vandalism to the park bathrooms. The children of Lowell deserve a safe place to play in the afternoons and weekends and days that the schools are closed.

Kids don't remember their best day of television!

In the last few years, almost 2 dozen trees have been planted at Paul Fisher Park, with generous donations through the Shade Tree Program. These trees will eventually provide the children and families of Lowell with shade so they can enjoy all aspects of Paul Fisher Park.

The Playground is where children cultivate their strengths and discover their passions.

On Behalf of the City of Lowell Parks and Recreation Committee, we are seeking donations from the community, from our neighbors and local businesses, to meet our goal of \$8,000.00 to replace aging and damaged playground equipment.

Play is our brains favorite way of Learning.

Our community needs you. The kids need you! Can we count on you to help?

Paul Fisher Park Playground Update: Donation Form
